

WHAT YOU NEED TO KNOW

1. **It is NOT a Vaccine.** As calls for mandatory COVID-19 vaccination grow around the world, it's becoming ever more crucial to understand what these injections actually are. The mRNA "vaccines" created by Moderna and Pfizer are in fact gene therapies.
2. **mRNA injections do not impart immunity.** Moderna and Pfizer both admit that their clinical trials aren't even looking at immunity. As such they do not fulfil the medical and/or legal definition of a vaccine. They do not inhibit transmissibility of SARS-CoV-2 infection. As such they do not fulfil the medical and/or legal definition of a vaccine.
3. **People are already dying.** Swathes of people are already dying and being permanently injured after being administered this mRNA injection.
4. **Informed consent.** People are not receiving full information before volunteering for this injection. This is in direct contravention of the Nuremberg Code (1947).
5. **Refusal to divulge contents.** Vaccine manufacturers have refused to declare a full list of ingredients in the 'vaccine'. Independent laboratories have analysed the contents of the vials and revealed that it contains deadly contents including graphene oxide, heavy metals and unidentified metal particles.
6. **Never before used on humans.** mRNA therapy has never been trialled, and never used before on humans. In previous laboratory experiments on animals ALL of the subjects died after receiving this injection.

Along with thousands of other eminent world leading professors, scientists & doctors professor Dr. Sucharit Bhakdi (the most cited microbiologist in German academic history and award-winning virologist is A pro-vaccine scientist) has said:

Quote

“

I know that a 'vaccine' against COVID-19 is bound to fail. If you go along these lines you are going to go to your doom. The permission to use this 'vaccine' is criminal. This world is being turned into an animal experiment.”
