Annwyl Ben Lake A.S.

Ysgrifennaf atoch I ddiolch i chi am fynd í gyflwyniad Andrew Bridgen A.S. gyda arbennigwyr ym maes iechyd, brechiadau, a gwyddoniaeth yn Nhŷ Portcullis ar y pedwerydd o'r mis hwn.

Ysgrifennaf y gweddill yn Yr Iaith Fain, gan fod copi o'r llythyr hwn yn mynd i gael ei gyhoeddi yn fuan ar fy mlog (BGB).

I was immensely pleased to discover, that amongst quite a few other Members of Parliament and the House of Lords, you attended the presentation of expert witnesses at Portcullis House on the fourth of this month. The event was arranged by Andrew Bridgen M.P. who has been unflinching in his efforts to draw attention to the travesty of adverse effects and the phenomenal increase of deaths, in the wake of the roll-out of inoculations, following the scam Covid-19 (so-called) pandemic.

Up until now he has been a lone voice in parliament, and has had limited traction for his campaign for justice for those effected. However the turn-out for his expert witness testimonials this last week seems to show that others are now starting to take this huge subject seriously – you included - a subject that has been buried in a cloak of silence by the mainstream media – up until now.

We are all quick to write to our M.P.s when we have grievances; in the

interests of fair play, I hope many others in your constituency will show their appreciation for your attendance at the recent presentation of evidence.

Thank you sincerely for taking notice. Undoubtedly, you will have noted that we at Big Gee's Blog have been working hard to wake people up to what has transpired over the period of 2020 to the present. Hence the reason I set-up the blog in early 2020. Please DO visit the site at: <https://biggeesblog.cymru> if you have not previously done so.

Once again, many thanks. I hope you will keep up with developments from here on.
